BESTEK 300W Power Inverter DC 12V to 110V AC

Thank you for choosing this 300w power inverter from our store. Please read the user manual carefully and use the product correctly based on the user manual so that you can use the product more conveniently and quickly.

Enjoy Yourselves Along the Road

Too many devices need to be charged at the same time? Now here is the one that you really need. The BESTEK 300W power inverter adapts DC 12V into AC 110V. Dual AC outlets with two USB ports provide 4 devices charging together. Compact designed, really portable carried within your car. High quality circuit prolongs life span, a perfect choice brings you convenience, enjoyment.

Feature

- BESTEK Advantage : Amazon's #1 power inverter brand. Provides 300 watts continuous DC to AC power with 2 AC outlets and 2 USB charging ports
- Chargers: 2 AC outlets and 2 USB charging ports, ideal for powering laptop, TV, cell phones, battery chargers, portable DVD players, lights, iPad, iPhone or Android phones and other electronic devices
- Plug and Power Convenience: 24 inch cigarette lighter plug convenient for you to plug directly into cigarette lighter socket
- Ultra compact and lightweight design, makes it ideal for use on the road, at campsites, remote job sites or anywhere that power is needed
- Built-in Protection: low battery alarm, low battery shutdown, overload indicator, short circuit protection. A replaceable fuse further protects the inverter from overload

Technical Specification

Dimensions	4.92 x 3.39 x 1.93 Inch
Weight	300g±10g or 522g±10g(depending on model)
Power	300W Rated, 360W Max
Input Voltage	DC11-15V
Output voltage	AC 110-120V/60Hz
Dual USB Port Output	DC 5V, 4.2A rated. Universal recognition ports
Indicator	Green-operation, Red-shutdown
USB Over Output Current Shutdown	6A

Usage Notes

- Please use battery clips when using it on device over 150W
- It need to be turned off to reset, waiting for the red light off, green light indicates normal working condition
- For DC12V and Car ONLY, not applied for DC 24V and airplane use
- The cooling fan remains on continuously. This means you'll only be able to use it in situations where the car is running
- Avoid placing the inverter into direct sunlight or next to heat-sensitive materials to protect inverter from damage
- Get to know its voltage using range, not allowed high power electric devices such as hair dryer, electric heaters, curling iron and etc

Warranty

Our company provides customers with a warranty of 18 Months from the date of purchase
