Vertical USB Power Strip

MRJ12001 Series

MODEL: MRJ12001

MODEL: MRJ12001-Tower

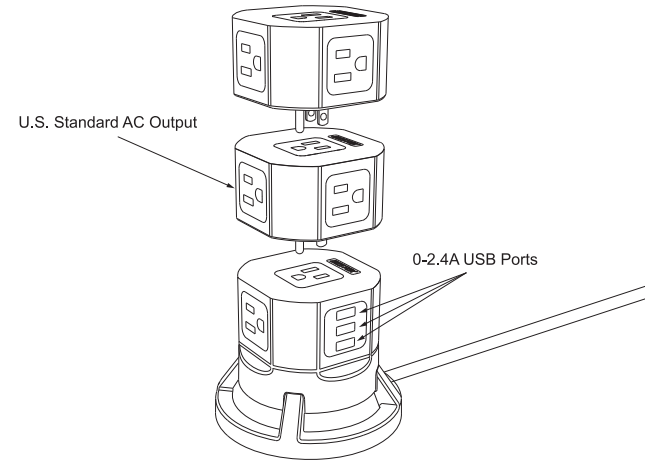

MODEL: MRJ12001-Base

Thanks sincerely for shopping with BESTEK.
Please read the manual carefully before using it and follow the instruction strictly.

Product Description:

- ◇ This is a detachable multi-layer vertical power strip, suitable for home, dormitory, office and so on.
- ◇ This power strip consists of the base and socket components, the socket components can be used together with the base or separately.
- ◇ The bottom layer has three USB Ports with intelligent identification. The built-in communication handshake chip can automatically identify the type and model of the mobile phone, providing a better matching for charging devices to make the mobile phone charge faster.
- ◇ The USB has over-current, over-voltage, short-circuit and overloaded protection.
- ◇ Equipped with an overloaded switch, which will automatically shut down when the AC load power exceeds the standard.
- ◇ The shell of the main body is made of V0 fireproof material and the high and low voltage components are fully safely isolated inside the power strip to make it safer to use.

Components:

Instructions:
